WHAT AILS YOU?

Do you feel dull, languid, low-spirited, lifeless, and indescribably miserable, both physically and mentally; experience a sense of fulness or bloating after eating, or of "goneness," or emptiness of stomach in the morning, tongue coated, bitter or foul taste in mouth, irregular appetite, dizziness, frequent headaches, blurred eyesight, "floating specks" before the eyes, nervous prostration or exhaustion, irritability of temper, hot flushes, alternating with chilly sensations, sharp, biting, transient pains here and there, cold feet, drowsiness after meals, wakefulness, or disturbed and unrefreshing sleep, constant, indescribable feeling of dread, or of impending calamity?

If you have all, or any considerable number of these symptoms, you are suffering from that most common of American maladies—Bilious Dyspepsia, or Torpid Liver, associated with Dyspepsia, or Indigestion. The more complicated your disease has become, the greater the number and diversity of symptoms. No matter what state it has reached, **Dr. Pierce's Golden Medical Discovery** will subdue it, if taken according to directions for a reasonable length of time. If not cured, complications multiply and Consumption of the Lungs, Skin Diseases, Heart Disease, Rheumatism, Kidney Disease, or other grave maladies are quite liable to set in and, sooner or later, induce a fatal termination.

Dr. Pierce's Golden Medical Discovery acts powerfully upon the Liver, and through that great blood-purifying organ, cleanses the system of all blood-taints and impurities, from whatever cause arising. It is equally efficacious in acting upon the Kidneys, and other excretory organs, cleansing, strengthening, and healing their diseases. As an appetizing, restorative tonic, it promotes digestion and nutrition, thereby building up both flesh and strength. In malarial districts, this wonderful medicine has gained great celebrity in curing Fever and Ague, Chills and Fever, Dumb Ague, and kindred diseases.

Dr. Pierce's Golden Medical Discovery

CURES ALL HUMORS,

from a common Blotch, or Eruption, to the worst Scrofula. Salt-rheum, "fever-sores," Scaly or Rough Skin, in fact, all diseases caused by bad blood are conquered by this powerful, purifying, and invigorating medicine. Great Eating Ulcers rapidly heal under its benign influence. Especially has it manifested its potency in curing Tetter, Eczema, Erysipelas, Boils, Carbuncles, Sore Eyes, Scrofulous Sores and Swellings, Hip-joint Disease, "White Swellings," Goitre, or Thick Neck, and Enlarged Glands. Send ten cents in stamps for a large Treatise, with colored plates, on Skin Diseases, or the same amount for a Treatise on Scrofulous Affections.

"FOR THE BLOOD IS THE LIFE,"

Thoroughly cleanse it by using **Dr. Pierce's Golden Medical Discovery**, and good digestion, a fair skin, buoyant spirits, vital strength and bodily health will be established.

CONSUMPTION,

which is **Scrofula of the Lungs**, is arrested and cured by this remedy, if taken in the earlier stages of the disease. From its marvelous power over this terribly fatal disease, when first offering this now world-famed remedy to the public, Dr. Pierce thought seriously of calling it his "CONSUMPTION CURE," but abandoned that name as too restrictive for a medicine which, from its wonderful combination of tonic, or strengthening, alterative, or blood-cleansing, anti-bilious, pectoral, and nutritive properties, is unequaled, not only as a remedy for Consumption, but for **all Chronic Diseases of the**

Liver, Blood, and Lungs.

For Weak Lungs, Spitting of Blood, Shortness of Breath, Chronic Nasal Catarrh, Bronchitis, Asthma, Severe Coughs, and kindred affections, it is an efficient remedy.

Sold by Druggists, at $1.00, or Six Bottles for $5.00.

☞ Send ten cents in stamps for Dr. Pierce's book on Consumption. Address,

THE FARMER FEEDETH ALL.

My lord rides through the palace gate,
My lady sweeps along in state,
The sage thinks long on many a thing,
And the maiden muses on marrying;
Then minstrel harps merrily,
The sailor plows the foaming sea,
The huntsman hills the good red deer,
And the soldier wars without a fear,
But fall to each whate'er befall,
The farmer he must feed them all.

Smith hammereth cheerily the sword,
Priest preacheth pure and holy word,
Dame Alice worketh broidery well,
Clerk Richard tales of love can tell,
The sea-nymph calls her foaming boer,
Dan Zephyr sighs in the mere,
And courtiers smile, strut and shine,
While pages bring the Gascon wine,
But fall to each whate'er befall,
The farmer he must feed them all.

Man builds his castles fair and high,
What ever raineth by;
Great cities rise in every land,
Great navies crowd to builder's hand,
Great towers, monuments and towers,
Great gardens and pleasure bowers;
But well man works, everywhere,
But work or rest, whate'er befall,
The farmer he must feed them all.

—Charles G. Leland.

OUR TEARS.

Their Physiological Value and Importance—An Instructive Lesson.

Tears in redundance may strikingly express emotion, but that is a mental side, which is but a small part of their function, as we shall see.

The principal element in the composition of a tear is, as may be readily supposed, water. The other elements are salt, soda, phosphate of lime, phosphate of soda and mucus, each in small proportions.

A dried tear seen through a microscope of good average power presents a peculiar appearance. The water, after evaporation, leaves behind it the saline ingredients which amalgamate and form themselves into lengthened cross lines, and look like a number of minute fish bones.

The tears are secreted in what are called the "lachrymal glands," situated over the eyeball and underneath the lid. The contents of these glands are carried along and under the inner surface of the eyelids by means of six or seven very fine channels, and are discharged a little above the cartilage supporting the lid.

The discharge of tears from the lachrymal gland is not occasional and accidental, as is commonly supposed, but continuous. It goes on both day and night, though less abundantly at night, through the "conduits" and spreads equally over the surface of the pupil in virtue of the incessant movement of the lids.

After serving its purpose, the flow is carried away by two little drains, situated in that corner of each eye nearest the nose, into which they run, and called the "lachrymal points."

The usefulness of this quiet flow of tears to both men and beasts is manifest. There is such an immense quantity of fine dust floating in the air, and constantly getting in the eyes, that, but for it, they would soon become choked.

Very little is requisite to keep the ball free, and when some obnoxious substance, smoke, an insect or the like, that affects the nerves, does make its way in, an increased flow is poured out to sweep it away.

LOG CABIN SUCCESS.

What ails the young men?

Robert Garrett's father left him a fortune of twenty millions. He was from childhood reared in luxury; he received a splendid education with an especial training into a thorough knowledge of railroad management and was expected to succeed his father as a railroad king.

Within three years after the responsibilities which his father's death threw upon him were assumed, he is reported a broken down man, with mind and health permanently shattered.

George Law is another young man left with millions of money, who is reported among the "wrecks." His father, bred a stone mason, was of gigantic size and strength, with commensurate brain power, so he became a great contractor, then a railroad king and left half a dozen millions for his son to dissipate. The young man is a success as a dissipater.

The founders of both of these great estates were born in the most humble walks of life, grew strong, mentally and physically, by simple living and honest labor and developed into financial giants. Their sons were reared in the lap of luxury and developed into intellectual pigmies.

The great men of our country have not, as a rule, come from the elegant mansions of the cities, but from the Log Cabins of the rural districts. Simple ways of living, freedom from dissipation and enervating pleasures, simple remedies for disease, effective and which leave no poison in the system, develope brawny, brainy men, who compel the world to recognize their strength and power.

The wholesome, old-fashioned Log Cabin remedies are the safest and surest for family use. Our grand-mothers knew how to prepare the teas and syrups of roots, herbs and balsams which drive disease out of the system by natural methods and leave no after ill effects. The most potent of these old-time remedies were, after long and searching investigation, secured by H. H. Warner of safe cure fame, and are now put out for the "healing of the nations" in the Warner's Log Cabin remedies.

Regulate the regulator with Warner's Log Cabin sarsaparilla and with pure blood giving health, strength, mental and bodily vigor, you may hope to cope successfully with the most gigantic financial problems of the age, without wrecking health and manhood.

The Boston Boy at School.

One boy was asked to define a common and a proper noun. He wrote:

"William is a proper noun and Billy is a common noun."

Another was told to write what he had learned in physiology. He did, thus:

"The body is composed of three parts—the head, the trunk and the abdomen. The head contains the brains if you have any. The trunk contains the heart and lungs. The abdomen contains the vowels, a, e, i, o, u and sometimes w and y."

What in the world that last bright boy was thinking of his teacher may have been able to puzzle out, but probably no one else can. The answer, however, was [illegible]—Boston Transcript.

EVERY WORKINGMAN SHOULD VOTE AGAINST FREE-TRADE.

Every laboring man can consistently vote this fall for Harrison and Morton. There was recently held a great labor convention in London, England, and it was asserted there, without contradiction, that there are now in England 700,000 workingmen out of employment, and the mills or factories they worked in are closed or working on short time. It was asserted at this meeting of workmen that relief to these laborers could be secured in but one of two ways: First, they must be assisted to the United States; or, Free Trade must be secured with United States, so as to secure free admission of their British manufactured goods into this country, and enable their mills to start up. Remember, England wants this Free Trade to the United States, but not into her own colonies. No laboring man can vote this fall to favor an English policy that will make her and her laborers richer and us and our laborers poorer. Our country has attained her present enviable prominence among the nations of the world by fostering home industries, and whenever our protective Tariff has been highest, times have been the best. Referring to the St. Louis Convention and the red bandanas that were woven on British Looms, the London Star said: "We may very well re-echo that enthusiasm on this side of the water, for the re election of President Cleveland means the adoption of his tariff programme."

Another London paper, the Economist, says: "On the adoption of Free Trade by the United States depends the greater share of English prosperity for a good many years to come." Do day laborers of this country want to help build up English manufactories? Another English paper, The British Hosiery Review, said: "We venture to assert that England will reap the largest share of any advantages that may arise from the adoption of the ideas advocated by the Free Trade party in the United States." Do our workmen like to hear such talk from our industrial enemy? Every voter in America should become indignant at this British arrogance, and we should be careful to vote any way but the way our enemies would have us vote.—Tariff League Bulletin.

THE "GREAT CONVENTION."

We have before us in the Inyo papers the minutes of the great Assembly Convention held at Benton on the 4th. This great representative body consisted of Wells Barnes, of Inyo, who held the proxy of Assemblyman Gould, of Inyo, who was elected Assemblyman by the Republicans of Mono county, while his county papers and neighbors were sulking; C. W. Craig, of the Inyo Index, held the proxies of the Alpine delegation—3 in number. Mr. Craig also held the proxy of P. A. Chalfant, of the Inyo Register. Therefore, Mr. Craig was the only regularly appointed delegate present, Mr. Barnes being only a proxy. Mr. Barnes was elected Chairman, and Mr. Craig Secretary. This Convention represented(?) 400 Republicans of Inyo and about 40 of Alpine, Mono's 400 not being represented, they having nominated an Assemblyman by popular vote, and in accordance with a previous understanding with the Republicans of this District. The Convention on taking a vote on the proposition for which it had assembled—the indorsement of the Mono or Alpine Assembly nomination, voted as follows: Coleman, of Alpine, 5; Boone, of Mono, 1. Mr. Craig voted himself and proxies for Mr. Coleman, excepting Mr. Chalfant's proxy, which vote was for Boone, as per Mr. Chalfant's instructions. The Republicans of Mono county have to thank Mr. Chalfant, of the Inyo Register, for upholding the rights of the Republicans of Mono county in this "Assembly muddle." In his last issue of the Register he condemns the said "Convention," and reprimands Alpine for coming in with a candidate at the eleventh hour, and considers Mono entitled to the nominee. Mr. Craig, of the Index, on the other hand, virtually chuckles over the act of that representative(?) body, recommends Mr. Boone to withdraw, if he is a good Republican. In all this Assembly controversy the Index has been "forninst" Mono county, the interests of Alpine's 40 Republican votes being greater, in its estimation, than those of the 400 Republicans of Mono. As a finale Mr. Boone has withdrawn, and the Republicans of Mono will elect Mr. Coleman, and then bide their time.

NO MORE CHINESE.

After years of hard work to secure the needed legislation California has at last succeeded in getting a Federal law that bids fair to stop the influx of Chinese to California. Judge Sawyer, of the U. S. Circuit Court in San Francisco, has decided the Exclusion Act to be Constitutional; that all Chinese on shipboard in the harbor of San Francisco cannot be allowed to land, and those on their way to this country must be sent back, as certificates are not contracts but merely given as a means of identification. In this glorious decision Judge Hoffman concurs. Of course, the case will be appealed to the United States Supreme Court, when it is to be hoped, an early decision will be arrived at, and the decision of Judges Sawyer and Hoffman affirmed. As California has had one or two "black eyes" given it already by the Supreme Court on Chinese questions, it may be as well for our people not to expect too much from that tribunal, but wait patiently and quietly until the wise men at Washington make their "guess" on the Constitutionality of the law. In the meantime, let us pray.

THE ISSUE.

Shall American Goods and Products, or English Goods and Products, stock our Home Market?

Shall American Wages or English Wages be paid to our Workingmen and Working-women?

Shall American Money be shipped to England to pay for English Goods and be paid to English workingmen, or shall it be kept at home and circulated among our own American workingmen for the support of their families and to build up American Homes? If the latter, every true lover of America should vote for Harrison and Protection.

Congressman Bayne, of Pennsylvania, thus outlines the difference between this campaign and that of four years ago: "In 1884 it was said that there was no difference between the two great parties; that there was no issue. This led many earnest temperance people to declare what they thought the great issue should be, and they voted for prohibition. But these people have other interests. There is an issue, a very clear issue—this year, and most of them are deeply interested in it. As Republicans they will vote with us, and the loss to the prohibition vote will be a gain for Harrison."

Good.—The Republicans of San Francisco have nominated six ladies for School Directors. As the San Francisco School Department has been badly managed in the past, it is to be hoped the voters of that city will put these ladies in the School Board and assist in putting a stop to running the schools as political machines. The San Francisco Post made a big fight on behalf of the ladies, and won.

There was no turning of the sentiment of the country over to Democracy in 1884. Nothing of the sort. The Republicans lost then by over-confidence—and lost only by the skin of their teeth. There is nothing like a temporary check to send an army of soldiers or of voters together. The Republicans had the check, they are now together, and they're going to win.

The Democracy have been flooding the country with election documents under forged franks of members of Congress. "Sunset" Cox's signature was one used, and he is "bucking" about it.

The Republicans will not put any money in the Louisiana campaign. Will they put much in the Texas campaign?

DEFENDERS OF AMERICAN INDUSTRY.

Every voter in the land should read what our great Statesmen of the past had to say in favor of Protection to American Industries. Read the following, Mr. Voter, and resolve to protect the workingmen of the country—of which you may be one:

"Congress have repeatedly, and not without success, directed their attention to the encouragement of manufactures. The object is of too much consequence not to insure a continuance of their efforts in every way which shall appear eligible."—GEORGE WASHINGTON.

"Every manufacturer encouraged in our country makes part of a market for provisions within ourselves, and saves so much money to the country as must otherwise be exported to pay for the manufactures he supplies."—BENJAMIN FRANKLIN.

"An extensive domestic market for the surplus produce of the soil is of the first consequence. It is, of all things, that which most effectually conduces to a flourishing state of agriculture."—ALEXANDER HAMILTON.

"We must now place our manufacturers by the side of the agriculturist. * * * Experience has taught me that manufactures are now as necessary to our independence as to our comfort."—THOMAS JEFFERSON.

"It will be worthy the just and provident care of Congress to make such further alterations in the tariff as will more especially protect and foster the several branches of manufacture which have been recently instituted and extended by the laudable exertions of our citizens."—JAMES MADISON

"Our manufactures require the systematic and fostering care of the government. * * * Equally important is it to provide at home a market for our raw materials."—JAMES MONROE.

"The great interests of an agricultural, commercial and manufacturing nation are so linked in union together that no permanent cause of prosperity to one of them can operate without extending its influence to the others."—JOHN QUINCY ADAMS.

"When our manufactures are grown to a certain proportion, as they will under the fostering care of the government, * * * the farmer will find a ready market for his surplus produce, and, what is of almost equal consequence, a certain and cheap supply for all his wants."—JOHN C. CALHOUN.

"Upon the success of our manufactures, as the handmaid of agriculture and commerce, depends in a great measure the independence of our country, and none can feel more sensibly than I do the necessity of encouraging them."—ANDREW JACKSON.

"NASAL VOICES, CATARRH AND FALSE TEETH."

A prominent English woman says the American women all have high, shrill, nasal voices and false teeth.

Americans don't like the constant twitting they get about this nasal twang, and yet it is a fact caused by our dry stimulating atmosphere, and the universal presence of catarrhal difficulties

But why should so many of our women have false teeth?

That is more of a poser to the English. It is quite impossible to account for it except on the theory of deranged stomach action caused by imprudence in eating and by want of regular exercise.

Both conditions are unnatural.

Catarrhal troubles everywhere prevail and end in cough and consumption, which are promoted by mal-nutrition induced by deranged stomach action. The condition is a modern one, one unknown to our ancestors who prevented the catarrh, cold, cough and consumption by abundant and regular use of what is known as Warner's Log Cabin cough and consumption remedy and Log Cabin sarsaparilla, two old fashioned standard remedies handed down from our ancestors, and now exclusively put forth under the strongest guarantees of purity and efficacy by the world-famed makers of Warner's safe cure. These two remedies plentifully used as the fall and winter seasons advance, together with an occasional use of Warner's Log Cabin rose cream, to strengthen and protect the nasal membranes, give a positive assurance of fredom, both from catarrh and those dreadful and if neglected, inevitable consequences, pneumonia, lung troubles and consumption, which so generally and fatally prevail among our people.

Comrade Eli Fisher, of Salem, Henry Co., Iowa, served four years in the late war and contracted a disease called consumption by the doctors. He had frequent hemorrhages. After using Warner's Log Cabin cough and consumption remedy, he says, under date of Jan. 19th, 1888: "I do not bleed at the lungs any more, my cough does not bother me, and I do not have any more smothering spells." Warner's Log Cabin rose cream cured his wife of catarrh and she is "sound and well."

Of course we do not like to have our women called nose talkers and false teeth owners, but these conditions can be readily overcome in the manner indicated.

From every section of the country comes expressions of approval of General Harrison as a candidate and as a statesman. There isn't the slightest indication of Republican defection—not the slighest. Such a condition of things is almost unprecedented.

A lot of destitute men and women lately arrived at New York, having been sent over by the Duke of Buckingham, of England. They will be sent back. So much for Buckingham!

The Democrats are much annoyed over Harrison's "stumping of the country by telegraph." Why, bless their souls, their troubles are only just beginning.

"Tippecanoe" Harrison was the candidate of the party that advocated $2 a day and roast beef for the workingman. History is repeating itself.

It is said that the Chinese Government has ordered the Chinese in this country to return home within three years.

It is said that the Pope has discountenanced cremation among Roman Catholics

CHRONICLE-UNION.

BRIDGEPORT, OCTOBER 20, 1888.

LOCAL INTELLIGENCE.

Personal.

Eugene Fitzgerald and Chas. E. Hayes, Democratic candidates, were in town this week looking after their "fences."

Mrs. Sheriff Morgan and Oscar; and Mrs. W. H. Virden have been visiting friends in Bodie. Mrs. Morgan returned on Thursday with Oscar, who was sick. Mrs. Virden returned yesterday.

G. W. Butterfield, of Lundy, and Dr. O'Connor, of Glasgow, were here this week on mining business.

Ernest Marks, of Bodie, has been here most of the week.

OUR COUNTY TAXES.—Notwithstanding the hue and cry that has been made against our Board of Supervisors, they have reduced our county taxes to about as low a rate as they were before the Bodie boom set in. At that time the county had nothing to show for its money. Now, with a county tax of 1.74, the taxpayers have a fine Court House, furnished, Stone Jail and Sheriff's residence, branch jails at Bodie and Lundy, valued at $48,000. It is fashionable to damn Supervisors, but it is not right, nevertheless. The Supervisors of this county are all taxpayers, some of them quite heavy ones, and why, we ask, should they not do their utmost to keep taxes within reasonable bounds? They know, as well as outsiders do, that if they allow a bill that is not right their pockets have to suffer for so doing. "Give the devil his due, if you break masters."

NONE.—As we have already said, there is no reason why Republicans should vote against any man on their ticket; but there are reasons why Democrats should vote for our Republican officers. They have been faithful officials, accommodating and efficient; they have been daily learning the requirements of their positions, and while having done well in the past, the knowledge they have gained of their duties will make them more efficient another term. We should remember that it takes an officer most of a first term to get the "hang" of his office, as the saying is. When you get a good officer keep him in the harness.

THE MAY LUNDY.—G. W. Butterfield, of Lundy, and Dr. O'Conner, of Glasgow, were here several days this week, examining records, etc., of mining properties in the Homer District. Dr. O'Connor is the representative, as we have said in a former issue, of an English Company which proposes to take hold of the May Lundy mine in that District. The Doctor is giving the matter a thorough examination, and is a man who is strictly business; and we are pleased to hear that he is very well satisfied with the outlook of the business that has brought him so far from "Merrie England" to investigate for himself and friends.

SWEETWATER BALL.—A ball was given at Henry Williams' last evening for the purpose of showing up the candidates of Esmeralda and Mono counties to the "dear people," and there was a large attendance from this county. The Bodie Band, accompanied by a large delegation from that town, took dinner here on their way down. The Band favored our people with several fine selections and played well. A majority of our Mono candidates attended and spent more dollars than they will get votes from Esmeralda county, but they doubtless had a good time, as they always do at Williams'.

TWENTY-ONESTERS.—There are many young Republicans in our county who will this year cast their first vote. This should be a straight Republican one. There is no good reason for erasing the name of one from the ticket. In years to come they will want to remember with pardonable pride their first vote, but can they if they "scratch, scratch, scratch?" Vote straight, boys, and you will have no regrets in the future on that score.

A PARADISE.—O. H. Hill and wife, formerly of Bodie, but now of Bishop Creek, were here a few days ago, visiting old friends. Mrs. Hill, who has invested largely in that section, thinks Bishop Creek is a perfect Paradise, although she thinks a good deal of Bodie. The Hills have erected a fine hotel at Bishop Creek—the Valley View House—and are, of course, keeping a first-class house. We are glad their lines have been cast so pleasantly.

MARRIED.—Miss Bertie M Briggs, daughter of the late Judge R. M. Briggs, was married at Oakland on the 4th to John J. Caviolo, of Sutter Creek, Amador county. They will reside at Jackson. The bride spent the Summer in Bridgeport previous to the Judge's death and made many friends here who will wish her every happiness in her new life.

THE OLD SLOGAN.—The old Democratic Slogan, "We are going to fill the Court House with Democrats," is again heard in our county. Will the Republicans of this strong Republican county allow such a thing? We think not.

THE MONTE CRISTO.—The tunnel of the Monte Cristo mine, Patterson District, is in over 800 feet—about half the distance to be run to strike the ledge. It is easy running and fine progress is making.

GOOD TIME.—Those who attended the dance at Sweetwater last night report having had a bang-up time. Some 300 were present from all parts of Esmeralda and this county.

A SWINDLE.—If you receive a circular offering to enlarge your photographs, etc., etc., throw it in the fire, as it is a swindle.

FAIR PLAY.—Mono is emphatically a Republican county, but for several years the Republicans elected Democrats to the most important positions within their gift. They elected Ben. H. Miller Clerk three terms, and McKinney Sheriff two terms, and have kept Treasurer Tinkum in place for some ten years. Now, when the Republicans have good officers in the Sheriff's and County Clerk's offices, would it not be fair play on the part of our Democratic voters to return the compliment and assist in continuing them in office? We think it would. It comes with an ill-grace for a Democrat to say "he never voted for a Republican in his life" to ask a Republican to vote for any particular man on the Democratic ticket. We are glad to know that there are many fair-minded Democrats who will vote for Morgan and Kister, because they have made efficient and accommodating officers, and do not think it good to make a change. We have nothing to say against any one on the Democratic County ticket—they are all gentlemen and have our respect, but we think our people have good men on the Republican ticket to select from, and there is no occasion for "swapping horses" at this time.

THE MINING CASE.—The Bulwer-Standard case is still on, the Bulwer having closed their testimony on Tuesday afternoon, and the Standard opened its batteries on Wednesday morning, when Mr. Schuman, having before him a model of the Standard mine, explained to the jury what the Standard Company intended to prove, after which the taking of testimony commenced. The trial will probably occupy most of next week.

GREAT REGISTER.—The CHRONICLE-UNION office has completed the publication of the Great Register and will deliver them to County Clerk Kister to-morrow. There are 814 names.

The Independent says a man named Jordan, formerly of Bodie, died in the Inyo Hospital on the 8th, of consumption.

LOOK OUT for Hale Bros. & Co., Sacramento, new advertisement next week; and in the meantime send for a catalogue.

AT BODIE.—The Democracy had a little whoop up at Bodie last Saturday evening. Hon. P. Reddy, W. E. F. Deal, of Virginia City, and R. S. Miner spoke.

BRACING.—The weather is getting to be quite bracing these mornings. At 7 o'clock this morning the mercury registered 28 degrees above zero.

ASSAULTED.—The Los Angeles Express says that Lester Osborne, formerly of Bodie, and now local editor of the Express, was set upon and severely injured about the head by a man named Lacey, on Monday evening, the 8th instant, on account, probably, of an article that appeared in that paper in which Lacey's name was mentioned. Mr. Osborne's friends will regret to hear that his injuries may lead to serious consequences, as he was just recovering from an attack of erysipelas.

The Alta estimates this year's registration in San Francisco will be about 56,000, and that at least 54,000 votes will be polled, which will be an increase of about 7,000 over 1888. It is thought the total vote of the State will be 230,000. Los Angeles shows the largest increase of any county in the State, her registration having more than doubled since 1886. This increase will make Los Angeles a Harrison and Morton county. The Alta don't say this, but we do.

Charles R. Story has been nominated for Mayor of San Francisco, and the ticket generally is pronounced good. Mr. Story is Secretary of the Home Mutual Insurance Co., and has been Tax Collector, License Collector and Supervisor of that city, and is popular. There are many in Mono county who would like to be able to vote for him.

On Thursday the death of James C. Flood, of San Francisco, was hourly expected at Heidelburg. His disease has gone to the heart, and on Wednesday he was unable to lie down. His suffering is intense.

On Thursday, in the United States Supreme Court, a writ of habeas corpus was asked for in the case of Judge D. S. Terry, of California. His friends withdrew a petition for pardon from the President.

Congress had better adjourn and go home. On Wednesday there were but ten Democrats and eight Republicans in the Senate.

Miss Hettie Fellows, of Carson, aged 15 shot herself to death on Wednesday, her parents having reproved her.

Supreme Judge Temple has been seriously ill, but is better.

Blaine speaks in Chicago to-night.

Congress adjourned to-day.

Prudence! Prudence!

In medication, as in aught else, prudence should be our guide. Yet thousands cast it to the winds. Every new nostrum finds its patrons, the medical empirics of every false school have their gulls. Every change in the gamut of humbug is rung successfully—for a time at least—the notes being furnished by the credulous. In happy contrast to the many advertised impostures of the day stands Hostetter's Stomach Bitters, now in its third decade of popularity, approved and recommended by physicians, indorsed by the press of many lands, sought and prized by invalids everywhere. It is an ascertained specific for and preventive of malaria diseases, chronic indigestion, liver complaint and constipation, checks the growth of rheumatism and neuralgia, is a peerless invigorant and useful diuretic. Nervous people benefit by it.

They are not national taxes which oppress American farmers. These are barely felt. They are State taxes, on account of State, county and township expenses, which are breaking the farmers' backs.—Cincinnati Commercial Gazette.

The German Emperor is having a grand picnic wherever he goes. He is now doing Rome, and will visit Pompeii. The Pope caused to be issued a circular letter, stating that the Emperor had recognized the Pope's high sovereignty.

John Gross, Mad Bear, White Ghost and Drifting Goose, Sioux Chiefs, have interviewed Secretary Vilas, at Washington, regarding their land rights.

Bold Jim Blaine is pouring hot shot into the Democratic ranks in Indiana, which will roll up a round majority for Harrison, her favorite son, and Morton, too.

Fritz Anschlag, the Los Angeles murderer, is to be hanged November 16th, the Supreme Court having dismissed his appeal.

There will be no use for the Democratic Rooster newspaper cut when the election returns come in—excepting for the one that is sick.

P. D. Wiggington, the American candidate for Vice President, says if he had a million dollars he would bet it on Harrison's success. Sensible man, in that.

The postoffice at Lathrop was ransacked on Tuesday morning by burglars, who got a ten-cent-piece for their trouble.

The Canadian steamer Parthia sailed on Wednesday with 128 Chinese who were refused a landing at San Francisco.

Moylon Ming, a wealthy Chinaman of Chicago, and who has been in this country twelve years and become quite Americanized, has been refused naturalization papers.

It is said that President Rutter, of the defunct Traders' Bank, of Chicago, drew out $400,000 in one year. It is a mighty nice thing to be a Bank President now-a-days.

The great Burlington strike is ended, the Company having made the desired concessions at this late day. Had it done so at first it would have made millions of dollars difference in its business.

Blaine was unable to spark at the Tippecanoe battle grounds on Wednesday, on account of his throat trouble. Aside from that he was in perfect health. He met an enthusiastic reception, notwithstanding.

Great distress prevails in Ramsey county, Dakota, where farmers are starving to death, their crops having been ruined by frost in August.

A railroad tunnel at West Point, New York, caved in on Wednesday when a train was passing through, but fortunately no one was seriously injured.

The Inyo Great Register will contain over nine hundred names this Fall—an increase of over one hundred.

Congressman Reed, of Maine, is coming to California to stump the State for Harrison and Protection.

Blaine has grand receptions wherever he appears in Indiana. The people go wild over the greatest American.

The latest shirt issued under the "Acorn" Brand is "THE WONDER," and it is also the best shirt ever made for the Trade.

The following are some of its principal points of excellence, a printed list of which is attached to each shirt:

1st—It has the finest and heaviest muslin ever put in a shirt, (Utica Nonpareil improved).

2—It has a 3-ply linen bosom.

3—It is of extra length.

4—It is reinforced, both back and front, extending and meeting under the arm, where most needed.

5—It has the Tomlinson patent endless facing.

6—It is custom make and finish.

7—It cannot break or tear anywhere.

Like the Deacon's "one-hoss shay," it has no weak spot, and will never "give" anywhere, but, at the end of scores of years, it will dissolve into space—not a thread broken or a seam started.

Fathers will bequeath these shirts, purchased in early manhood, a priceless legacy to their children.

We expect a large demand for them to place in the corner stones of lasting structures as evidence of the greatest triumph of modern civilization.

We are taking steps to put this crowning achievement of art into the "Acorn" agencies in London, Paris, Berlin, St. Petersburg and Constantinople, when it will not fail of instant and permanent success.
